Subject: United States et al. v. Drummond Company, Inc. d/b/a ABC Coke, No. 90-5-2-1-10717

Good morning,

On February 8, 2019, DOJ and the Jefferson County Department of Health lodged a proposed consent decree that cited Drummond's ABC Coke Plant as having multiple Clean Air Act violations. Our client, GASP, has some concerns and questions about the consent decree. Do any of you have any time next week we can meet prior to when the comments are due, March 11th? We would be happy to come to Atlanta.

Thank you,

Sarah
